Re: Rejection of Administrative Complaint

Dear Director Comer:

On December 27, 2016, the U.S. Environmental Protection Agency (EPA), External Civil Rights Office (ECRCO), received a complaint against Missouri Department of Natural Resources (MDNR). The complaint was originally filed with the Department of Justice on July 7, 2016. The complainant alleges discrimination based on race in violation of Title VI of the Civil Rights Act of 1964, as amended, 42 United States Code 2000d *et seq.* (Title VI). Specifically, the complaint states that MDNR discriminated on the basis of race against African American residents of Grandview with respect to MDNR's January 2, 2014 issuance of a permit authorizing Ideker Inc.'s permanent stationary asphalt plant at 5600 East 150 Highway in Kansas City, Missouri, in violation of Title VI and EPA's nondiscrimination regulation found at 40 C.F.R. Part 7. After careful consideration ECRCO cannot accept the complaint for investigation.

Pursuant to EPA's nondiscrimination regulation, ECRCO conducts a preliminary review of administrative complaints to determine acceptance, rejection, or referral to the appropriate Federal agency. *See* 40 C.F.R. § 7.120(d)(1). To be accepted for investigation, a complaint must meet the jurisdictional requirements described in the EPA's nondiscrimination regulation. First, the complaint must be in writing. *See* 40 C.F.R. § 7.120(b)(1). Second, it must describe an alleged discriminatory act that, if true, may violate the EPA's nondiscrimination regulation (i.e., an alleged discriminatory act based on race, color, national origin, sex, age, or disability). *Id.* Third, it must be filed within 180 days of the alleged discriminatory act. *See* 40 C.F.R.

§ 7.120(b)(2). Finally, the complaint must be filed against an applicant for, or recipient of, EPA financial assistance that allegedly committed the discriminatory act. *See* 40 C.F.R. § 7.15.

ECRCO has concluded that it cannot accept the administrative complaint for investigation because it does not meet the jurisdictional requirements described in EPA's nondiscrimination regulation. Specifically, the complaint was not filed within 180 days of the acts alleged. The 180-day period to bring a Title VI claim begins "when the Plaintiff knew or should have known of the injury upon which its action is based."¹ Here, the 180-day period began on or about January 2, 2014, when the Complainant became aware its comments were not accepted by MDNR prior to issuance of the permit.² The complaint was not filed, however, until July 7, 2016. This is outside of the 180-day timeliness requirement. Based on ECRCO's review of the facts, ECRCO has insufficient basis for granting a waiver of the 180-day filing requirement. As explained above, ECRCO cannot accept this complaint for investigation and is closing this case as of the date of this letter.

ECRCO is committed to helping state recipients establish and implement nondiscrimination programs relative to the requirements of federal nondiscrimination laws and EPA's nondiscrimination regulation. In particular, EPA's nondiscrimination regulation (40 C.F.R. Part 7) sets forth the foundational elements of a recipient's nondiscrimination program. These include: continuing notice of nondiscrimination (40 C.F.R. § 7.95); the adoption of grievance procedures that assure the prompt and fair resolution of complaints which allege a violation of EPA's nondiscrimination regulation (40 C.F.R. § 7.90); and the designation of at least one person to coordinate a recipient's efforts to comply with its nondiscrimination obligations (40 C.F.R. § 7.85(g)). ECRCO also works with recipients to implement programs and policies to ensure they provide meaningful access for persons with limited-English proficiency³ and persons with disabilities⁴ to all their programs and activities that receive federal financial assistance from EPA. This includes working with recipients to implement a public participation policy and process to help recipients ensure that their environmental permitting programs provide meaningful public involvement that is consistent with Title VI and EPA's implementing
